

Dear Pastor,

Many of you may know about the organization **Planned Parenthood** from national news, including their selling of human body parts. That same abortion giant has a business right here in Birmingham. In fact, Planned Parenthood is **the only abortion clinic left in this city**, and it has **failed to perform abortions for over a year**. Today, as you read this letter, our city is free from the destruction that accompanies the local abortion clinic. That is an unimaginable blessing. And Planned Parenthood wants to see it snuffed out as soon as possible.

In order to secure their weakening grasp on our children's innocent lives, Planned Parenthood is currently preparing to build a brand new **\$2 million dollar facility** in downtown Birmingham, right next to I-65. They have purchased property, cleared the lot, and begun construction! **Think about that: Planned Parenthood – the world's largest provider of abortion – is breaking new ground in our city.**

You might also recall that in this last election Planned Parenthood **routed one million dollars into Alabama** to bolster abortion and defeat pro-life initiatives. They did not succeed – another blessing from the Lord. But they are not deterred. Planned Parenthood, the abortion Goliath, **has set its sights on Alabama**.

Brothers and sisters, this is not a fundraising letter. **This is a desperate plea, from one pastor to another**, to link arms and stand against the tide of destruction the enemy wants to release in this city through Planned Parenthood. There has never been a more important time **to stand together against this great evil**. God has never shown us more favor than He has in this last year, as Planned Parenthood – the world's gold standard for abortion – has *struggled* to succeed in our city. He is with us, and the time is now!

**What we need now is clear, courageous, and impassioned leadership from the Shepherds of this city. Together, we can keep Birmingham abortion free. More than ever, we need you to:**

- Be vocal about Planned Parenthood from the pulpit.
- Be vocal about Planned Parenthood on the public sidewalk.
- Encourage your congregations to join this campaign and stop Planned Parenthood.
- Attend a city-wide meeting with other pastors who are also willing to stand.

Do you have questions? Would you like to attend the city-wide meeting? Please contact me today at [info@cecforlife.com](mailto:info@cecforlife.com). If the idea of a brand new abortion facility troubles your heart and weighs heavy on your spirit, let's talk. **This facility can be stopped**. By the power of Christ in each of us, and the mighty hand of the Father.

**Prayerfully, peacefully, and legally**, we can make Birmingham one of the largest and safest metropolitan areas in the country for a woman and her unborn child. But we must do it now.

In His mercy,

Fr. Terry Gensemer  
*Director of CEC For Life*
